5 Reasons You Can't Afford to Overlook It the Power of Diversity

July 19th 2017

Diversity in the workplace is increasing every year. Employers are looking for diversity as the hire employees. Employers now know that diversity is not optional because it helps the work force run smoothly. A statistic states that companies with ethnic diversity are 35% more likely to outperform businesses that don't have diversity. Also women are much underrepresented in the workforce. Employers rather hire men than woman for the same position.

I believe that diversity is increasing in the workforce. I can see this in my everyday life as I go to different stores and restaurants. I can see the diversity in each store by the people that work there. This is good that employers are not just hiring one race or gender.
