Write a reflection below or submit a typed reflection (150 word minimum) on the most important details from the video.

#### Reflection:

After watching the video, I think “College & Career Ready” means having the attitude, ethics, and intellectual ability to contribute to society in a meaningful way.

Attitude...so many of my classmates have the attitude that everything should be given to them. They think they are going to graduate from high school or college and have the car, the house, the life they dream of. Don't get me wrong, I hope they do, but I think you must have the attitude of humbleness and willingness to go get it and EARN it.

Ethics...you always tell us that no matter where we can from, that ethics can still be learned and improved. I like that you say this to us because it means that we are not a slave to our environment. So many of my friends and classmates don't have great home lives and don't have the ethics they need to be successful. I am thankful my mom raised me with strong ethics, but I'm also glad that I can still learn to be better.

Intellectual ability...I control me. If I choose to be a doctor, lawyer, engineer, etc...I have the ability to control my outcome and learn the skills and information necessary to succeed.

100/100

Feedback: Jabais, I loved your reflection. You took the video clip and went way deeper than I expected. Thank you for the kind words, but you are truly a great young man and student.
