

CSP Career Presentation Activity

Objectives

In this activity students will research and present information about a career of their choice.

Standards

IT-CSP-1.3 Exhibit critical thinking and problem solving skills to locate, analyze and apply information in career planning and employment situations.

Project Time

This project will take about 3 hours to complete.

Ethics Statement

Students will model work readiness traits required for success in the workplace including teamwork, multitasking, integrity, honesty, accountability, punctuality, time management, and respect for diversity.

Project Details

Research a career of interest and present key information about that career or field. Presentations can be in Powerpoint, Google Slides, or other approved format.

Presentation should include the name of the career or field, the type of work involved, required education or training, expected salary, and why the student is interested in the particular field.

Inclusion of supporting graphics and/or images and other multimedia is required. The presentation should be pleasing to look at and should avoid the use of clashing colors. All slides should employ the same theme.

RUBRIC

50 points – All require information is included in the presentation.

20 points – Supporting graphics and/or multimedia included

20 points – Format of slides is pleasing and consistent

10 points – Spelling and grammar are correct
