“My Career Objective” Explain your plans for your future career.

After completing high school with my Associates Degree as well as my diploma, I hope to attend the University of Georgia in Athens. There I would like to complete my Bachelor's Degree with a major in Business Management and a Co-Major of International Business with minors in Marketing and Finance. Upon completing that I would like to transfer to New York University (NYU) where I would continue my pursuit of business to a Masters and hopefully a Doctorate. While attending NYU, I plan to get a job with an international company who I can grow with and move up in; that way I can combine two things I love: business and traveling. After staying with that company for around 20 years, give or take a few, I want to move to a beach town and open up a book store where I can continue using my business skills while also perusing my love for reading.

Score: 100/100

Being forward looking is always important. The ability to plan for your future will help you in selecting the appropriate college and major. I am so glad that you are competing in Job Interview also.
