

Employability Skills Area: Leadership and Teamwork

Assignment Name: Making a Movement!

“Leadership is practiced not so much in words as in attitude and in actions.”

Harold S. Geneen

Watch the (entertaining!) video found at the following link:

What is the “tipping point” to become a movement?

When a large amount of people start to join in.

Based on the video, what is your suggestion for anyone who aspires to lead with or without organization authority?

Do whatever you want despite what others say about you, if you want to do it go for it.

Recap what you learned from the video. List 8 points you found essential to the spirit of the video.

The leader has to be brave.

The 1st follower is very important

The 2nd follower shows that the 1st worked

After the 2nd more and more people will join

Once enough people join it becomes a movement

The 1st follower deserves more credit

The leader has to be willing to look strange

All of these different parts work together.
