

Name: _____

Electronic Communications Project

Electronic communication has changed dramatically over the years. For this assignment, you will research the changes in electronic communication and how it has impacted business. You will then create a timeline of important changes and discuss the positive/negative impacts on business. Focus of the following topics: evolving issues in a technological-based society; the world as a global business community; potential benefits/problems with security, confidentiality, professionalism; collaboration with peers/others through emerging electronic communication tools; proper and professional use of telecommunication tools.

You may choose how you would like to present your information from the following:

- Written/typed essay (Times New Roman, 12pt)
- Poster
- Exhibit
- Flow Chart/Diagram - Scrapbook

Requirement	Possible Points	Points Earned
Timeline of changes (at least 20 items)	40	
Impact on business	40	
Correct grammar, spelling	10	
Resources cited	5	
Neat and well-laid out	5	
TOTAL POINTS:	100	

Project Due Date: Thursday, October 30th at end of class

Impact on business	40	40
Correct grammar, spelling	10	10
Resources cited	5	5
Neat and well-laid out	5	5
TOTAL POINTS:	100	100

Before modern technology came around, business was conducted in person or by writing. This limited what business could be conducted worldwide. When technology came around, business communication changed in a big way. Now, businesses can instantly get in touch with anyone at any place at any time. This has allowed the world to become what is known as a global economy. Examples of such technology are phone calls, video conferencing, texting, and e-mail.^[1]

Project Due Date: Thursday, October 30th at end of class
